Pls see if Shimkus can meet Mathy and me. Don't cut any of our Carter time. Maybe immed after the tour with Ron ends. I still want to have Ron and team meet Mathy and me after any meeting with Shimkus ends. We have a car so can travel to someplace near Westlake. Pls be sure to keep OSWER's Shawna Bergman and OCIR looped in on any meeting.

I have a feeling now that this Shimkus meeting plus briefing with Ron will chew up avail time for climate change event. As we have nothing confirmed on that, hold off on more planning until we get Shimkus either set or determine it can't fit Shimkus' sched.

Karl Brooks
Regional Administrator
EPA Region 7
913-551-7006

Folks here have convinced me that there's greater value in the person connection than the potential risks of hard questions to which we could get back to him. Let's see whether he's available for quick meet.

I don't know his interest in the W/L - let me get back to you on whether there be some benefit in meeting him - I'm leaning to no.

Yeah. We r still trying to lern his interests in W/L. We've herd frm r5 that his main interest is related to a PCB landfill in his I'll dist. Are there larger S/f issues abt W/L that attract him?

I will hav a sr staff and 2 prog experts accompanying him and Rep Davis. I've asked them to meet u and me after for a downbrief. That work for u?

Let me kno if u see value in u connecting w him after his tour.

I understand congressman Shimkus - is touring Westlake landfill on Monday afternoon. He's the chair of the House committee overseeing superfund and RCRA issues.
